

Divide/Line COMPACT splitters are designed and manufactured accordingly to the main principles of Camoga products.

Divide/Line COMPACT splitter even if it's reduced size, has got the same quality cutting performances and reliability of all other Divide/Line Camoga splitters.

All mechanical parts that could directly or indirectly affect the quality, are manufactured with the same materials and the same processing techniques used for larger models.

Therefore also the model Divide/Line COMPACT enjoys the most topical upgrades and technological improvements, result of the steady Camoga research.

### Features

- No knife trend setting ••
- Grinding unit suitable for corundum or diamond wheels••
- Guide gibs group with automatic adjustment
- Independent exhausters for emery dust and working scraps
- Wheel moving on precision roller guides ••
- Optical viewer to check bevel
- Analog thickness readout
- Handbook and service wrenches
- Ergonomic work position to reduce tiredness ••
- Safety device in compliance with CE standards
- Low noise level
- Life lubricated mechanical components
- Access to all components for an easy and rapid servicing
- Features introduced for the first time by Camoga

### Accessories

Upper Feed Roll  
 Rubber Coated Bot Feed Roll  
 Alternative grinding unit: Diam/Corum  
 Mechanical Thickness Gauge

### Model

COMPACT

Feed Table Height	0.95 m
Installed Power	1.0 kW
Net Weight	173 kg
Gross Weight	219 kg
Machine Dimensions	0.98 x 0.62 x 1.05 m
Case Dimensions	1.15 x 0.84 x 1.28 m

### Technical Data

Working Width	300 mm
Max Thickness	5 mm
Min Thickness	0.8/0.2 mm
Knife Dimension	0.5*40*2065 mm

Camoga S.p.A. , in view of the continuous technologic evolution promoting, may modify technical data and features of the product described in this leaflet without notice. Such leaflet has to be considered merely orientative and does not constitute any offer.
